

- **Tempered glass front & side panels**
- **Dual-chamber design**
- **Compatibility with back-connect motherboards**
- **6 x 120mm white A-RGB fans pre-installed**
- **A-RGB control hub with M/B sync and PWM fan speed control**

The **CHIEFTEC Visio** features tempered glass panels on both the left and front sides, incorporating a dual-chamber layout to accommodate the latest back-connect motherboards (ASUS BTF and MSI Project Zero compatible). This design streamlines cable management for a clean interior view and unobstructed airflow.

The refined internal layout supports the mounting of 360mm radiators on the top and bottom, 240mm radiators on the motherboard side, and CPU tower coolers up to 175mm in height. High-end GPUs up to 410mm can be easily accommodated, thanks to its spacious and well-ventilated configuration.

The case comes with six pre-installed 120mm white A-RGB fans and a control hub for motherboard synchronization of A-RGB and PWM fan speed control. 5 of these fans are designed with reverse airflow fan blades to enable the optimum intake on the sides and the bottom without sacrificing on the aesthetics. Designed with gamers in mind, the **CHIEFTEC Visio** provides the opportunity to create a distinctive build.
